

APEX IT Consulting, LLC is a veteran-owned, Service-Disabled Veteran-Owned Small Business (SDVOSB) delivering cybersecurity, cloud services, managed IT, and technology consulting for federal, state, and commercial organizations.

Founded by U.S. Army veteran Laurence Jackson, APEX brings the discipline of more than two decades in national security to practical technology solutions. We help organizations protect information, strengthen infrastructure, and maintain reliable operations through clear communication, defined scope, and accountable support.

From planning and implementation to ongoing maintenance, we deliver solutions aligned with each client's operational needs, security requirements, and long-term goals.

**Website:** [www.apexitconsultingllc.org](http://www.apexitconsultingllc.org)  
**Address:** 99 Kaanua Pl, Kailua, HI 96734  
**UEI:** ZQAMKSUWSLG8  
**CAGE:** 03M11

## CORE COMPETENCIES

### Cybersecurity & Compliance

- Security assessments and vulnerability analysis
- System hardening and access controls
- Threat monitoring and data protection
- NIST SP 800-171 alignment and CMMC readiness support

### Cloud Services

- Cloud migration and modernization
- Microsoft 365 administration and support
- Data backup and recovery
- Cloud infrastructure optimization

### Managed IT Services

- Help desk and technical support
- Network management and system maintenance
- Endpoint configuration and lifecycle support
- Proactive monitoring and troubleshooting

### Consulting & Integration

- Technology assessments and strategic roadmaps
- Infrastructure planning and modernization
- System integration and implementation support
- Onsite and remote technical consulting

## RELEVANT EXPERIENCE

### Federal & State Financial Cybersecurity & IT Examinations

Over four years as Examiner-in-Charge (EIC), leading joint federal and state examinations of financial institutions and money transmitters. Assessed cybersecurity risk, IT controls, and corporate governance while coordinating cross-agency compliance and remediation.

### Classified Project Management

Over 15 years executing time-sensitive, highly classified projects in aerospace and defense environments. Managed protected materials and personnel within SCIFs, supported DCSA compliance and clearance requirements, and used SIPRnet and JWICS for secure communications.

### Adaptive Leadership & Strategic Operations

Over two decades leading across international conflict zones and corporate boardrooms. Navigated uncertainty, managed crises, and aligned diverse stakeholders to achieve mission objectives and support strategic growth for small and medium-sized companies.

## DIFFERENTIATORS

- **Veteran-Led Accountability:** Founded by a U.S. Army veteran with more than two decades in national security, bringing discipline, reliability, and follow-through to every engagement.
- **Technical Expertise:** Founder holds eight cybersecurity certifications—including CISM, CISA, and CompTIA SecurityX—and three master's degrees spanning cybersecurity, international management, and intelligence studies.
- **Practical, Mission-Aligned Solutions:** Clear recommendations and defined scope tailored to each client's operational needs, budget, and security requirements.
- **Support Across the Technology Lifecycle:** Coordinated planning, implementation, and ongoing support across cybersecurity, cloud services, and managed IT.
- **Security-Focused Delivery:** Data protection, access controls, and system resilience guide technology decisions from initial assessment through ongoing maintenance.

## NAICS & PSC CODES

- **541512** – Computer Systems Design Services
- **541513** – Computer Facilities Management Services
- **541519** – Other Computer Related Services
- **541511** – Custom Computer Programming Services
- **561621** – Security Systems Services
- **541330** – Engineering Services
- **518210** – Computing Infrastructure Providers / Data Processing
- **D302** – IT Systems Development Services
- **D307** – Automated Information Systems Design & Integration
- **D310** – Cybersecurity & Data Protection Services
- **D399** – Other IT & Telecommunications Services
- **R408** – Program Management/Support
